

DMOSS Skilled Specialists

In 2005, the Defence Materiel Organisation (DMO) established the DMO Support Services (DMOSS) Panel to supplement DMO in-house capacity with skilled specialists from industry. Aquila Engineering was successfully appointed as a Panel Member in Oct 2009, when DMO sought to engage additional industry members.

Aquila is approved to provide 23 separate skill sets across a variety of disciplines at multiple skill levels ranging from practitioner to discipline specialist. Please visit our DMOSS web page for additional information.

If you are interested in pursuing DMOSS employment opportunities please submit current Curriculum Vitae to the email address provided below.

Short to medium term opportunities exist; with either casual employment or sub-contract arrangements being offered. Applicants would need to be flexible with work location, as opportunities are often offered across Australia.
